**NEW CUSTOM CUT QUIETSKIN RISER COVERS FOR 2010 FROM  
CHERRYHILL OUTDOORS.**

**GREENVILLE, PA (January 25<sup>th</sup>,2010)**

Cherryhill Outdoors has continued to add to their line of custom cut Quietskin micro-fleece riser covers for many popular bow makes and models. New patterns for the 2010 season include BowTech Destroyer 350, Hoyt Maxxis 31 and 35; and Mathews Z7. Patterns for many drop away rests are also available such as replacement covers for the QAD Ultra-Rest, and Trophytaker series of rests. Shown left to right are the riser covers for the Mathews Z-7, BowTech Destroyer, and Hoyt Maxxis 31.

The Quietskin covers are thin, quiet, and are held on with a waterproof adhesive. Dealers say “they wear like iron and don’t affect arrow flight like standard moleskin”. The riser covers are available in a Mossy Oak Breakup Pattern and black, left hand versions are available as well. Contact Cherryhill Outdoors, 724-588-0113, [www.cherryhilloutdoors.com](http://www.cherryhilloutdoors.com).

For more information on the Quiet Skin Custom Cut Riser Covers contact: sales department, Cherryhill Outdoors, 1513 Methodist Road, Greenville, PA 16125.
